Hi team,

I spoke with Anthony Leverock today regarding the work plan for drilling a temporary well within the stormwater accumulation area west of the former Nammo Talley facility. Anthony sent me an electronic copy of the work plan and ADEQ's comments to the work plan (see below). I wanted to send these documents to you for your record. I will also place them on the G Drive:

G:\#WST 5 - Corrective Action\Nammo Talley\GW Well Exploration Work Plan Aug 2012

I read through ADEQ's comments (there's only 4) and they all seem pretty reasonable. Anthony indicated that they have given Talley conditional approval on the work plan. Hopefully Talley concurs with these comments and incorporates the changes into their scope. I'll let you know if anything else comes up. In the meantime, let me know if you have any questions.

Thanks,
Cynthia

Subject: Talley GW Well Exploration Workplan

Cynthia –

Per our conversation earlier today, attached is the 4/13/12 Nammo Talley Workplan and our 5/2/12 comment letter. The comment letter does not request a resubmittal of the Workplan, so I am not sure if NT is going to resubmit, or just make the changes and schedule a date for the drilling. I'll let you know when I have more information on that, as well as info on the regional wells.
